**Subject:** Please pass this TD (and attachments) on to SRC (Teresa M) for the asbestos subcontractors

Nikki: Here is the text and thank you!

As you may know, the draft Asbestos Risk Evaluation and associated documents were publicly posted on Monday, March 30<sup>th</sup> - [and all the documents are posted here.](#)

Attached are both the charge questions to the peer review committee and the draft risk evaluation (a pdf version with links to all sources; as subcontractors you have access to this internal version and we ask that you not circulate this or any of the references due to copyright restrictions).

Per our communication with you on 2/27/20, as part of your continuing support of the asbestos risk evaluation, the subcontractors (Drs. Loomis, Elliot and Stayner) are expected to be available for the following tasks (the first one has been replaced as their expertise was not needed to address inter-/intra-agency comments and the second one has a new addition):
